

Duet ASP320

Dual SIM Smartphone

Elegant and feature rich, the ASP320-Q smartphone is available at a remarkable value. With Android 2.2 Froyo OS, the Duet ASP320 offers dual SIM support that allows users to seamlessly switch between a business and private number as required.

The additional SIM is also available when traveling abroad eliminating the need for multiple phone devices. Preloaded with the most popular Google Mobile Services, the Duet ASP320 provides immediate connectivity and productivity out of the box.

- » **Duet** – dual SIM support for either a business and private number, or use the additional SIM when traveling abroad
- » **Instant Access** – the ASP320 connects to Quad-Band GSM 850/900/1800/1900MHz networks, as well as to 802.11b/g Wi-Fi networks
- » **High Definition** – 3.2” capacitive touchscreen for easy navigation and brilliant display
- » **Stay Connected** – surf the Internet, post Facebook updates, review latest Android Marketplace app, send emails, play games, watch videos and more
- » **Ready the Go** – Pre-loaded with popular Google Mobile Services including Gmail, Google Map, YouTube, Gtalk, Google News & Weather, Android Market, etc.
